Re: Valley Motorsports Park Project
 Tamworth, NH

Permit: WPS-6920

Dear Applicant:

Based upon plans and application, approved September 20, 2004, we are hereby issuing RSA 485-A:17 Site Specific Permit WPS-6920. The permit is subject to the following conditions:

1. Water quality degradation shall not occur as a result of the project.
2. Revised plans shall be submitted for permit amendment prior to any changes in construction details or sequences. The Department must be notified in writing within ten days of a change in ownership.
3. The Department must be notified in writing prior to the start of construction.
4. The approved plans and supporting documentation in the permit file are a part of this approval.
5. This permit expires on September 20, 2006.
6. Other permits from the local municipality, the State of New Hampshire and the Federal Government (US EPA and the US Army Corps of Engineers) may be required for this project. Projects disturbing over 1 acre require a Federal stormwater permit from EPA. Information regarding this permitting process can be obtained through the following e-mail address: www.des.state.nh.us/StormWater/construction.htm
7. No activity shall occur in wetland areas until a Wetlands Permit is obtained from the Department. Issuance of this permit does not obligate the Department to approve a wetlands permit for this project.
8. At least 48 hours prior to the start of construction, a pre-construction meeting shall be held with NHDES Land Resources Management Program staff at the project site or at the DES Office in Concord, N.H. to review the conditions of the NHDES Site Specific Permit and Wetlands Permit. It shall be the responsibility of the permittee to schedule the pre-construction meeting, and the meeting shall be attended by the permittee, his/her professional engineer(s), wetlands scientist(s), and the contractor(s) responsible for performing the work.
